### GATEWAY TO JOBS

**Learn Slowly, but Daily :** “Be Good, Try to be better, One day you’ll be the Best. Thus, greatness is not given as a charity by someone, but, earned by us step by step”. Once! Was in Singapore. I could not get sleep one night. But, in the next house there was something going on. Till morning I could not sleep and I heard nonstop activities from the house. In the morning when I went for a walk, I came to know that it was the Guest House of Rajani Kant, and the whole night the 60 year old Rajanikanth was practicing dance and getting his steps and dialogues right .Practice, practice and practice...it is the only solution to all our problems, especially in ‘Spoken English’. MS Subbalakshmi used to practice singing 3 hours everyday,even after becoming Bharata Ratna.Ustad Bismillah Khan used to practice Shehnai for 3 hours a day even in his 90s.Same is the case with Beethoven earlier.Arjuna proved ‘practise makes a person perfect’.Instead of learning 1000 words regarding Synonyms,Antonyms etc.continuously for the GRE Examination,learn only 2 to 10 words every day and apply them, use them with mother,friends,brothers and sisters and peers,juniors,even if you’ve to contrive a situation to use it.Everyday ask yourself”What is the development in me as a human being compared with what I was yesterday?What are the few aspects I learned in the last 24 hours which I can apply in my life and be a better person?”.If you know, what you know and what you do not know you are wise, you are on the right path of success.”The 21<sup>st</sup> Century illiterate is one, who cannot unlearn to relearn”. see this simple Mathematical equation,  $(x=0 \text{ to } 1)=1$ That is, you may be at 0,but everyday if you learn a very very small amount  $x$ ,remember every day, then one day you’ll be 1 in 1 crore.To Conclude, Read a daily daily for 15 minutes loudly and Write right things in dairy daily. Develop daily.

**Teach: We learn thrice when we teach others.** So, teach the difficult subjects or difficult sentences and concepts to your peers, father or mother or brothers, sisters and friends. Best is to talk to your mother as she doesn’t know what you are saying, and she feels happy when her child speaks in English! If you can give tuitions to your classmates or juniors, it would be excellent. During the walk after dinner if you can discuss such important and difficult points with your friends, you will never forget-just see the difference. Most of the boys discuss the same eternal topic-about girls, and little bit you’ve learned also will be forgotten forever! The bottom line is, if you want to learn fast, teach first. If you want to crack an IAS or IPS or CAT, I’ve a mantra: Teach 8<sup>th</sup>, 9<sup>th</sup> or 10<sup>th</sup> class children studying in CBSE.That’s it! One who helps you realize God, is a speaker, one who makes you realize yourself is a Prophet. Be a Prophet!
